\*Sports equipment can be transported on the basis of the baggage allowance included in the passenger's ticket. No surplus charge will apply if sports equipment does not exceed the baggage limit included in the ticket

\*\*Exception: When calculating the surplus, the standard size limit of 158 cm (sum of three dimensions L x W x H) will not be taken into account only for bicycles, angling/ ski / snowboard / golf equipment

Between **01.12.2019-30.03.2020** one additional "Ski/Snowboard Equipment" with all it's components (skis, boots, bindings, poles, etc.) is permitted free of charge over to all point-to-point and through fares on the following 9U destinations(including through itineraries issued in one ticket), irrespective of ticket issue date. The piece of baggage over 158 cm and over 23kg shall be charged cumulatively (overweighed charges + oversized charges).

These rules apply only for flights operated by Air Moldova on its own aircrafts. In case of code-share flights operated by the Air Moldova partners other regulations imposed by the flight operator may apply.

For flights that involve other carriers shall apply the MSC baggage rules (Most Significant Carrier) for the free baggage allowance and excess baggage charges.
